

Continuous Forms Processing & Mailing Equipment

The **SPEDO 2300** high performance forms cutter surpasses the boundaries of continuous forms processing whilst improving the flexibility, accuracy and reliability demanded by today's applications.

Rugged build quality with proven components designed for the hardest working letter and print finishing shops.

The **SPEDO 2300** uses the latest generation of Spedo's well proven control system. This system has now been refined and expanded to provide spare capacity for the users every need.

O.M.R., O.C.R., Bar Code Reading, External Speed Control, Systems Interface, Time Management and Internet Access.

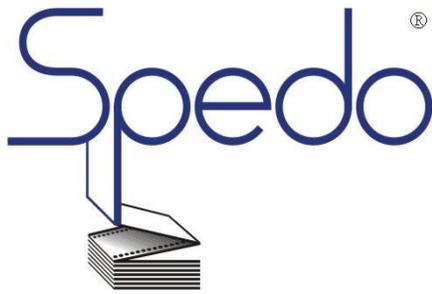

The **SPEDO 6300** in-line, four-plate folder, designed and built to run in system with your Spedo cutter.

The **SPEDO 6300** is capable of folding up to 46,200 2-up forms per hour, and can be adjusted 'on the fly' if fine-tuning is needed. The fully integrated solution for On-Line Cut & Fold Operations.

The **SPEDO 8300** conveyor stacker designed for use both off and on-line with Spedo finishing equipment.

The **SPEDO 8300** includes variable speed control, boost functions and systems interface, so an entire on-line system can be stopped and started from the operator's position at the stacker.

Continuous Forms Processing & Mailing Equipment

The **SPEDO 970** is a versatile forms processing unit which can be used to centre split stationery, merge forms or collate stationery prior to sheeting with a SPEDO cutter.

The **SPEDO 971** has the same specification as the SPEDO 970 with an additional processor to allow the unit to communicate with a printer, un-winder, etc to control paper flow through the complete system.
